introduces

Sacs Tecnorib's fantastic autumn

Rebel 55

In late 2021 Sacs and TecnoRib, major players in the RIB world and maxi-RIB trendsetters, came together to create Sacs Tecnorib. The autumn events will now provide them with an opportunity to present all their iconic, futuristic boats in the same place.

The action kicks off at the Cannes boat show from 6th to 11th September. In one section of a large stand divided into two areas TecnoRib will be showing their P 35, 42 and 50, while Sacs will be showing their Strider 10, 11, 13 and 15 in the other. Not forgetting the Rebel Lounge with the Rebel 47 and 55 models, ready to welcome the many fans of these sophisticated boats.

Strider 15

P50

The new arrival for TecnoRib will be the P50, the 15-metre flagship featuring a perfect synthesis between design and spine-tingling performance, with a top speed nudging 50 knots, while for Sacs it's only natural for us all to expect a spectacular new entry, probably at the Düsseldorf Boat Show in January. But we can be sure that there'll be no shortage of predictions and gossip among the dealers, journalists and aficionados at the waterside in Cannes, Genoa and Montecarlo!
